DETAILED ACTION

Claims 16 and 18 are improper multiple dependent because they refer to more than one other claim not in the alternative only. It is noted that 37 CFR 1.75(c) states: "Any dependent claim which refers to more than one other claim ("multiple dependent claim ") shall refer to such other claims in the alternative only" (see MPEP 608.01(n)). Accordingly, the claims 16 and 18 have not been further treated on the merits.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15 drawn to an apparatus, classified in class 606, subclass 92.
- II. Claims 17 and 19-30, drawn to a cannula, classified in class 606, subclass 181.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a cannula or trocar to drain fluid or administer a substance such as a medication. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
